Introduction

Under an agreement with the Alabama Department of Transportation, the South Central Alabama Development Commission (SCADC) has continued a rural transportation planning program for the 2014-2015 fiscal year, covering the period from October 1, 2014 through September 30, 2015. The study area for the South Central Alabama Rural Transportation Planning Process includes the six counties, and the 26 municipalities located therein, that are served by the SCADC, in their entirety. These counties are Bullock, Butler, Crenshaw, Lowndes, Macon and Pike Counties. (See the map on the following page.) There are no urban areas in these counties. The South Central Alabama area is served by two interstate highways, six federal highways, and 20 major state highways. These highways offer both, north-south and east-west regional access as well as access throughout the South Central Alabama area.

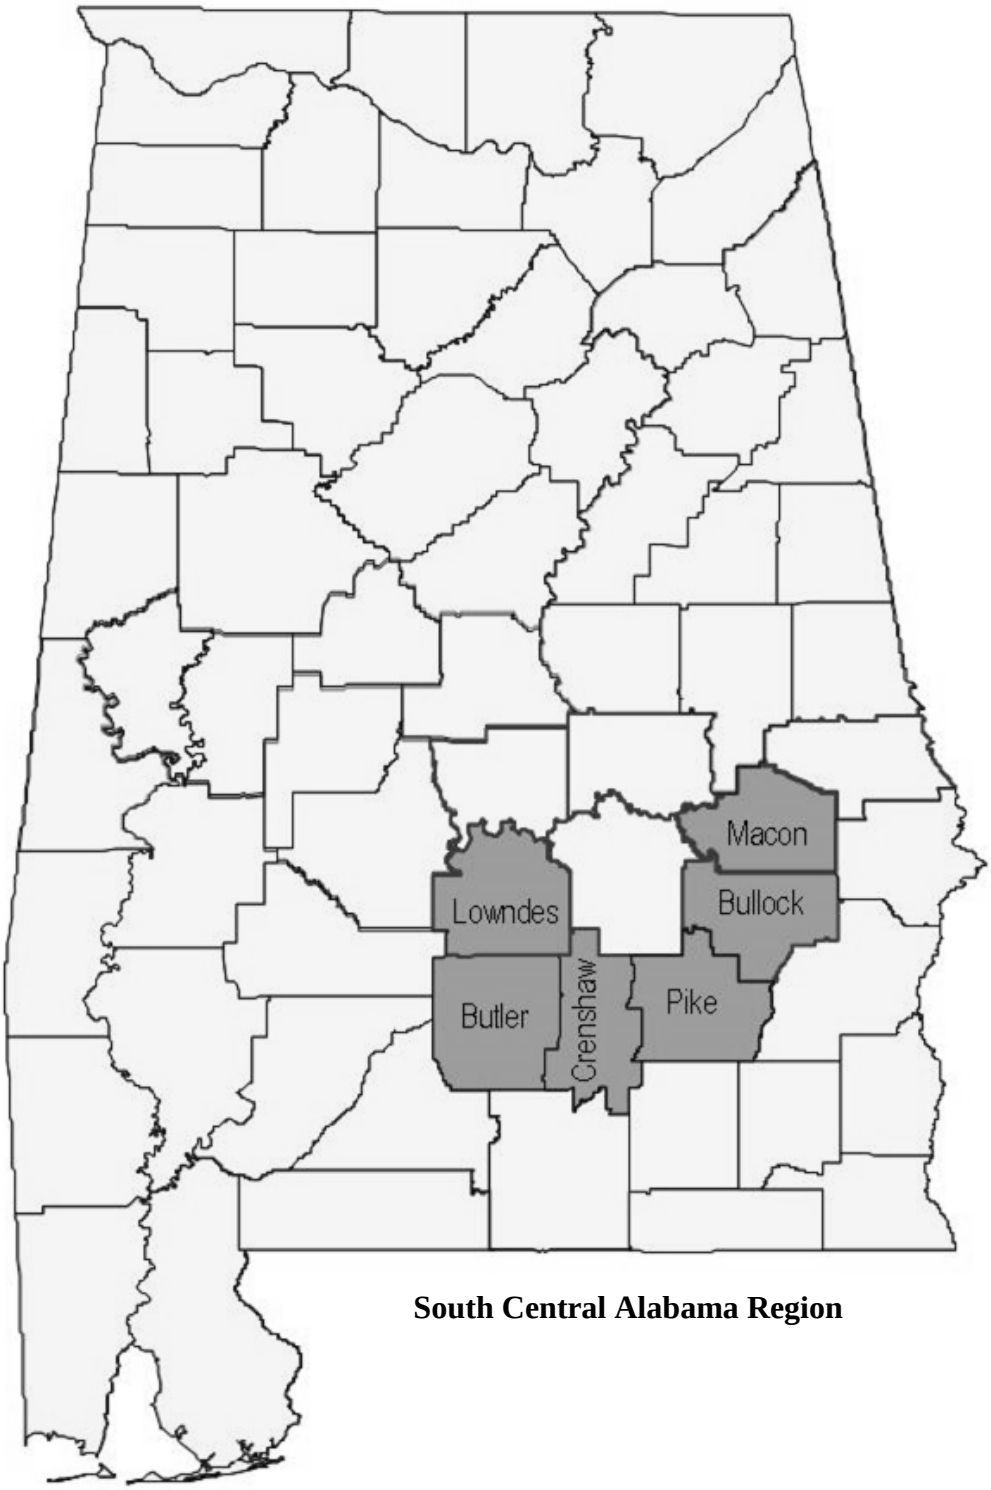
The purpose of the ongoing program is to assist the Alabama Department of Transportation in carrying out a Statewide Transportation Planning Process, as outlined in 23 USC 134 and 135 (amended by Map-21, Sections 1201 and 1202, July 2012) and Title 23 CFR 450, by establishing a continuous and on-going rural transportation planning process that will aid in the identification of rural transportation needs and issues of the South Central Alabama region.

Public involvement in the rural transportation planning program in South Central Alabama region continues to be a challenging, yet critically important, part of the process. Since the beginning of the South Central Alabama Rural Transportation Planning Process in 2006, the number of rural transportation stakeholders increased from 439 stakeholders in 2007 to 704 stakeholders during the 2013 fiscal year, then decreased to 680 stakeholders during the 2014 and 2015 fiscal years. During the 2014-2015 fiscal year, the following public involvement activities were conducted by the South Central Alabama Development Commission:

- One Steering Committee Meeting;
- One Regional Advisory Committee Meeting;
- Six County Stakeholder Meetings;
- Rural Transportation Postcard Mailing; and
- A Rural Transportation Provider Telephone Survey

Additionally, SCADC conducted a telephone survey of all rural transportation providers in the six counties of the region. Documentation of public involvement efforts included in this report are meeting notices, meeting advertisements, meeting summaries and agendas, attendance rosters, and meeting handouts and materials. The South Central Alabama Rural Transportation Planning Process Public Involvement Plan, which was reviewed in September 2015 is included in the appendix, along with information lists for media contacts and rural transportation stakeholders.

The South Central Alabama Rural Transportation Region



South Central Alabama Region

Committee Meetings

It was planned that the South Central Alabama Rural Transportation Steering Committee would meet on two occasions during the 2015 fiscal year. The first meeting, which was planned for the second quarter of the fiscal year (January through March) never evolved due to an inability to attend by a majority of the Steering Committee members. The second meeting was conducted on Wednesday, September 24, 2015. The meeting was held at the South Central Alabama Development Commission office, located in Montgomery, Alabama. Steering committee members were notified by e-mail with a meeting notice. Additionally, the general public was notified of the Steering Committee meeting by newspaper advertisement in nine newspapers in the region. The following items are included for the Steering Committee meeting as documentation of the public involvement process followed in conducting the South Central Alabama Rural Transportation Steering Committee meetings: meeting notice, advertisement, meeting agenda, meeting minutes (which includes attendance), and all meeting material that was distributed.

The South Central Alabama Rural Transportation Steering Committee is comprised of 22 members representing all six counties, the Alabama Department of Transportation, and the South Central Alabama Region. Committee structure is shown below and a list of the Steering Committee members is provided on the following page.

South Central Alabama Rural Transportation
Steering Committee Meeting E-mail Notice

From: Tracy Delaney
To: Steering Committee Members and Advisory Committee Members
Subject: South Central Alabama Rural Transportation Meeting on Sept. 24, 2014
Date: Thursday, September 17, 2014 2:08:00 PM

The South Central Alabama Development Commission will host a
Joint Meeting of the Steering Committee
and All County Advisory Committees of the
South Central Alabama Rural Transportation Planning Organization

Thursday, September 24, 2015
10:00 AM to 1:30 PM
South Central Alabama Development Commission
5900 Carmichael Place, Montgomery, Alabama 36117

Lunch Will Be Provided
Please RSVP by Monday, September 21st
to Sharri Miller at 334-244-6903, ext. 141
or by e-mail at rpo@scadc.net.

Topics of discussion will include:
- Rural Transportation Needs and Issues
- Rural Transit Needs (Transportation Service)

SCADC Rural Transportation Planning Process
Steering Committee Meeting Minutes: September 24, 2015

The 15th meeting of the South Central Alabama Development Commission Rural Transportation Planning Program Steering Committee was held in conjunction with a Regional Advisory Committee meeting on September 24, 2014 at 10:00 AM at the offices of South Central Alabama Development Commission in Montgomery, Alabama. Mayor Saint T. Thomas, of Union Springs, chaired the meeting and called the meeting to order. Roll was called for the Steering Committee and a quorum was declared present. Introductions were made around the table and an attendance roster was signed by all present. A copy of the attendance roster is attached and made a part of these minutes. Mayor Thomas asked members to review the minutes from the September 24, 2014 Steering Committee meeting that were included in their agenda package. Mr. Jason DeShazo made a motion to approve the minutes as presented of the September 24, 2014 meeting; Mr.Tyson Howard seconded the motion. The motion carried.

Business
During the Communications and Updates portion of the meeting, committee members took the opportunity to update everyone on transportation activities in their respective areas. Mr. Benjie Sanders, of Crenshaw County, reviewed a bridge completion project on CR 59 at Blue Creek. Mr. Jason DeShazo, of Bullock County, reviewed three resurfacing projects on CR 22, CR 31 and CR7. Mr. Russell Oliver, of Pike County, reviewed three ATRIP projects on CR 3307 and CR 1135. During discussion of other statewide and county transportation updates, major topics included bridge replacements and state and federal road widenings and improvements, with particular emphasis on ATRIP improvements.

Ms. Tracy Delaney presented the following three documents for review by the Steering Committee: the South Central Alabama Rural Transportation Planning Process Guiding Principles; the South Central Alabama Rural Transportation Planning Process Public Involvement Plan; and the South Central Alabama Rural Transportation Planning Process FY 2015 Work Program. The documents were reviewed and resolutions were presented to approve the Guiding Principles and the Public Involvement Plan. Following the review, Mr. Howard made a motion to adopt Resolution 15-01 to adopt the Guiding Principles. The motion was seconded and approved. Mr. Howard made a motion to adopt Resolution 15-02 to approve the Public Involvement Plan. The motion was seconded and approved. The motion was approved. Approved resolutions are attached and made a part of these minutes.

Ms. Delaney presented the list of transportation needs and issues that had been identified through the 2015 Rural Transportation Process. The lists were reviewed by committee members. Committee members stated that many of the items on the lists had been rectified through recent improvements. The needs and issues lists were updated during the meeting. Mrs. Delaney also presented the 2015 South Central Alabama Human Services Coordinated Transportation Plan for review. There was significant discussion regarding transportation and transit priorities and further clarification of the program funding available for transportation services. Following the discussion, a resolution was presented to approve the 2015 South Central Alabama Human Services Coordinated Transportation Plan. Mr. Sanders made a motion to adopt Resolution 15-03; the motion was seconded by Mr. Howard and unanimously approved.

Comments, Next Meeting Date and Adjourn
Ms. Delaney asked that the steering committee make an effort to meet again in November or December this year; however, a meeting date was not set. With there being no further items for discussion, Mr. Howard made a motion was made to adjourn the meeting. Mr. Sanders provided a second. With no further comments, Mayor Thomas adjourned the meeting.

Respectfully submitted,
Tracy Delaney

South Central Alabama Rural Transportation
Planning Organization Steering Committee

RESOLUTION 15-01
Approval of the Guiding Principles of the
South Central Alabama Rural Transportation Planning Process

WHEREAS, the South Central Alabama Rural Transportation Planning Organization Steering Committee was formed to facilitate consultation between local officials and the Alabama Department of Transportation; and

WHEREAS, the South Central Alabama Rural Transportation Planning Organization Steering Committee shall carry out transportation consultation, planning and programming functions as set forth in any agreements entered into by this process by and between the South Central Alabama Development Commission and the State of Alabama Department of Transportation, the United States Department of Transportation, or in such manner as events shall dictate; and

WHEREAS, the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** constitutes the procedures and responsibilities that will serve to establish, organize, and guide the proper functioning of the South Central Alabama Rural Transportation Planning Process; and

WHEREAS, an annual review and discussion of the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** was conducted by the South Central Alabama Rural Transportation Steering Committee in a regular meeting on Wednesday, September 24, 2015.

NOW THEREFORE BE IT RESOLVED, this 24th day of September, 2014 that the South Central Alabama Rural Transportation Steering Committee does hereby approve the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** as the continuing guide for the proper functioning of the South Central Alabama Rural Transportation Planning Process.

RESOLUTION 15-02
Approval of the Public Involvement Plan of the
South Central Alabama Rural Transportation Planning Process

WHEREAS, the South Central Alabama Rural Transportation Planning Process Steering Committee was formed to facilitate consultation between local officials and the Alabama Department of Transportation; and

WHEREAS, it is the vision of the South Central Alabama Rural Transportation Steering Committee to establish a continuous and on-going rural transportation planning process that will aid in the identification of transportation needs and issues of the non-metropolitan areas of the South Central Alabama Region; and

WHEREAS, a public involvement process is necessary to have an open consultation process that encourages early and continued public participation, to provide access to data by the public, to receive public input, and to encourage participation in the planning process by low-income groups, minorities, persons with disabilities, and the elderly; and

WHEREAS, the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** outlines the strategies necessary to conduct a public involvement process that will aid in the aid in the identification of the rural transportation needs and issues of the South Central Alabama region; and

WHEREAS, an annual review and discussion of the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** was conducted by the South Central Alabama Rural Transportation Steering Committee at a regular meeting on Wednesday, September 24, 2015.

NOW THEREFORE BE IT RESOLVED, this 24th day of September, 2015 that the South Central Alabama Rural Transportation Steering Committee does hereby approve the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** as the on-going guide for the conducting a well-organized public involvement process for the South Central Alabama Rural Transportation Planning Process.

RESOLUTION 15-03
Approval of the 2016 South Central Alabama
Human Services Coordinated Transportation Plan

WHEREAS, public transportation and public transit continue to be identified by local citizens in the South Central Alabama Region as primary rural transportation needs and concerns; and

WHEREAS, the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** has been developed to reflect the unmet needs and strategies for the provision of coordinated transportation services in the South Central Alabama Region; and

WHEREAS, the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** has been duly reviewed and discussed by the Steering Committee of the South Central Alabama Rural Transportation Planning Organization.

NOW THEREFORE, BE IT RESOLVED, this 24th day of September, 2015, that the Steering Committee of the South Central Alabama Rural Transportation Planning Organization does hereby adopt the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** as a guideline for rural public transportation and public transit in the South Central Alabama Region.

SCADC Rural Transportation Planning Process
Steering Committee Meeting Minutes: September 24, 2014

The 14th meeting of the South Central Alabama Development Commission Rural Transportation Planning Program Steering Committee was held in conjunction with a Regional Advisory Committee meeting on September 24, 2014 at 11:00 AM at the offices of South Central Alabama Development Commission in Montgomery, Alabama. Macon County Chairman, Mr. Louis Maxwell chaired the meeting and called the meeting to order. Roll was called for the Steering Committee and a quorum was declared present. Introductions were made around the table and an attendance roster was signed by all present. A copy of the attendance roster is attached and made a part of these minutes. Chairman Maxwell asked members to review the minutes from the September 25, 2013 Steering Committee meeting that were included in their agenda package. Mr. Harold Powell made a motion to approve the minutes as presented of the September 25, 2014 meeting; Mr. J.D. Smith seconded the motion. The motion carried.

Business
During the Communications and Updates portion of the meeting, committee members took the opportunity to update everyone on transportation activities in their respective areas. Mr. David Primm, of ALDOT, stated that the third round of the ATRIP (Alabama Transportation Rehabilitation and Improvement Program) Program is going smoothly; however, there will not be a fourth round of funding. In response to questions, Mr. Primm also stated that a portion of the Outer Loop, from Interstate 85 to Vaughn Road, should be drivable in mid to late summer of 2016. Mr. Jason DeShazo, of Bullock County, stated that U.S. Highway 82 and Alabama Highway 110 had received state road improvements that were greatly needed. Mr. Donta Frazer, of Pike County, stated that the Pike County Transit System had received Section 5311 funds for three new busses, which have had a great impact on serving the nutrition needs of the county's population. During discussion of other statewide and county transportation updates, major topics included bridge replacements and state and federal road widenings and improvements, with particular emphasis on ATRIP improvements.

Ms. Tracy Delaney presented the following three documents for review by the Steering Committee:
- South Central Alabama Rural Transportation Planning Process Guiding Principles;
- South Central Alabama Rural Transportation Planning Process Public Involvement Plan;
- South Central Alabama Rural Transportation . Planning Process FY 2015 Work Program.

The documents were reviewed. It was noted that the only change was to the name of both documents to revise "South Central Alabama Rural Transportation Planning Process" to South Central Alabama Rural Transportation Planning Process" in the title and where referenced in the documents. Resolutions were presented to approve the Guiding Principles and the Public Involvement Plan. Following the review, Mr. Powell made a motion to adopt Resolution 14-01 to adopt the Guiding Principles. The motion was seconded and approved. Mr. J.D. Smith made a motion to adopt Resolution 14-02 to approve the Public Involvement Plan. Ms. Presetta Walker provided a second. The motion was approved. Approved resolutions are attached and made a part of these minutes.

Ms. Delaney presented the list of transportation needs and issues that had been identified through the 2014 Rural Transportation Process. The lists were reviewed by committee members. Committee members stated that many of the items on the lists had been rectified through recent improvements. The needs and issues lists were updated during the meeting.

As a last item of business, Mr. Mickey Hall, of Skipper Consulting, presented preliminary recommendations for transportation and circulation improvements for Downtown Troy, as part of a Downtown Troy Transportation Study which is a precursor to a proposed Troy Downtown Revitalization Plan. The Troy Downtown Transportation Plan is a vital element to the long-range preservation of the historic downtown

resources and the continued functionality of the area for commercial and private vehicular circulation, as well as bicycle and pedestrian connections between Downtown Troy and Troy University. The study area is located northeast of the U.S. Highway 231, but has strong regional accessibility via U.S. Highway 29, and one arterial road – Brundidge Street, and one collector – South Three Notch Street. Further, the downtown area offers one on the few pedestrian-friendly retail and commercial areas in the city. With the close proximity of the downtown to Troy University, it is paramount that the area retain a circulation network that is conducive to vehicular and pedestrian traffic while ensuring the preservation of the city's historic resources.

Mr. Hall reviewed the scope of work for the project and provided an overview of the planning process. He further reviewed the identification of opportunities and challenges for transportation and circulation improvements, along with a look at other model downtown areas. Mr. Hall concluded the presentation with preliminary development concepts that included the following: Develop Gateways into Downtown; Develop Wayfinding Signs; Improve Sidewalks; Improve Select Intersections; Improve Pedestrian Environment; Establish Pedestrian & Bicycle Connection between Downtown and the University; Improve Roadway Connections between Downtown and the University; Improve Parking Lots; and Improve Landscaping. Committee members also suggested that railroad heritage be a part of the downtown transportation program.

Comments, Next Meeting Date and Adjourn

Ms. Delaney asked that the steering committee make an effort to meet again in November or December this year; however, a meeting date was not set. With there being no further items for discussion, Mr. Powell made a motion was made to adjourn the meeting. Mr. Smith provided a second. With no further comments, Chairman Maxwell adjourned the meeting.

Respectfully submitted,
Tracy Delaney

1.0Introduction

1.1Purpose

The purpose of this document is to describe the work tasks that will be performed by the South Central Alabama Development Commission (SCADC) in Fiscal Year 2016 (FY16) in carrying out the South Central Alabama Rural Transportation Process as outlined in 23 USC 135 (as amended by MAP-21 Sections 1201 and 1202). The South Central Alabama Rural Transportation Planning Organization (RPO) includes the rural counties of Bullock, Butler, Crenshaw, Lowndes, Macon and Pike and the 26 municipalities located therein. All work outlined in the work program will be performed by staff of the South Central Alabama Development Commission or under subcontract with SCADC, as necessary. The planning process will be a one-year program sponsored by the Alabama Department of Transportation (ALDOT) and the South Central Alabama Development Commission. In FY16, the South Central Alabama RPO proposes to continue the public involvement and awareness process and rural transportation data collection by carrying out the work program tasks herein.

1.2Goals

The goals of the South Central Alabama Rural Transportation Planning Process are:

1. a well-managed rural transportation planning process;
2. an effective rural transportation committee structure;
3. a comprehensive data library and distribution source;
4. reports that are useful to ALDOT and the local governments; and
5. a well-informed public who actively participates in the rural transportation planning process.

1.3Format

The work program is divided into five tasks. The tasks outline the transportation planning work that will be performed by the staff at the South Central Alabama Development Commission, as staff of the RPO, over the one-year period (FY16) from October 1, 2015 through September 30, 2016. The description of each task includes the objective, proposed work, products, staffing, schedule, and budget information. Section 3.0 of the 2016 Work Program includes financial tables that summarize the work program budget.

1.4Title VI in the Work Program

The South Central Alabama RPO is committed to ensuring public participation in the development of all transportation plans and programs. It is the goal of the South Central Alabama RPO that the transportation planning process will be accessible, transparent, and inclusive. The RPO is and will be compliant with all Title VI programs, processes, and procedures including, but not limited to, 42 USC 2000d.

2.0Tasks

2.1Administration and Management

Objective
To effectively manage the cooperative rural transportation planning process.

Proposed Work
1. SCADC will manage the transportation planning process.
2. SCADC staff will maintain employee timesheets.
3. SCADC will prepare and submit invoices as required by ALDOT.
4. SCADC will prepare and submit semi-annual progress reports.
5. SCADC staff will participate in ALDOT approved training as needed. Out-of-state travel will be approved by ALDOT.

Products
1. A well-managed rural transportation planning process
2. Employee timesheets
3. Quarterly invoice reports
4. Semi-annual progress reports

Staffing
South Central Alabama Development Commission

Schedule
Semi-annual progress reports submitted to ALDOT: April 30, 2016
October 31, 2016

Fiscal Year 2016 Task 2.1 Budget
The following is the budget allocation for Task 2.1for fiscal year 2016.

Funding Source	Amount
State SPR Funds	$5,000.00
Local SCADC Funds	$1,250.00
Total	**$6,250.00**

2.2Committee and Stakeholder Services

Objective
To effectively conduct rural transportation planning committee and stakeholder meetings.

Proposed Work
1. SCADC will maintain and update rural transportation stakeholder mailing lists.
2. SCADC will prepare and distribute meeting notices for committee meetings.
3. SCADC will conduct committee meetings and other meetings concerning the rural transportation planning process.
4. SCADC will prepare meeting summaries or meeting minutes for committee meetings.
5. SCADC will develop materials (documents, work programs, project lists, and maps) for all committee meetings.

Products
1. Stakeholder mailing lists for each of the six counties
2. Timely meeting notices
3. Well-organized committee meetings
4. Well-written minutes and summaries of committee meetings
5. Well-prepared maps, project lists, and documents for committee meetings

Staffing
South Central Alabama Development Commission

Public Involvement Documentation Report	October 2016

Fiscal Year 2016 Task 2.4 Budget

The following is the budget allocation for Task 2.4 for fiscal year 2016.

Funding Source	Amount
State SPR Funds	$12,000.00
Local SCADC Funds	$3,000.00
Total	**$15,000.00**

2.5 Public Involvement

Objective
To inform the public of the rural transportation planning process and to actively seek public involvement from stakeholders and interested citizens.

Proposed Work
1. SCADC will update and maintain the South Central Alabama Rural Transportation Public Involvement Plan.
2. SCADC will maintain a public involvement mailing and distribution list in conjunction with a stakeholder mailing list.
3. SCADC will maintain a news release mailing list and distribute news releases for rural transportation planning meetings.
4. SCADC will maintain a mechanism for making information available to and receiving comments from rural transportation stakeholders and interested citizens.
5. SCADC will assist and/or conduct public involvement meetings for the review of the State Transportation Improvement Plan and the Long-Range Plan, as needed.
6. SCADC will prepare and maintain records of all public involvement activities.
7. SCADC will prepare a record of public involvement documentation report.

Products

South Central Alabama Rural Transportation
Planning Organization Steering Committee

RESOLUTION 15-01
Approval of the Guiding Principles of the
South Central Alabama Rural Transportation Planning Process

WHEREAS, the South Central Alabama Rural Transportation Planning Organization Steering Committee was formed to facilitate consultation between local officials and the Alabama Department of Transportation; and

WHEREAS, the South Central Alabama Rural Transportation Planning Organization Steering Committee shall carry out transportation consultation, planning and programming functions as set forth in any agreements entered into by this process by and between the South Central Alabama Development Commission and the State of Alabama Department of Transportation, the United States Department of Transportation, or in such manner as events shall dictate; and

WHEREAS, the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** constitutes the procedures and responsibilities that will serve to establish, organize, and guide the proper functioning of the South Central Alabama Rural Transportation Planning Process; and

WHEREAS, an annual review and discussion of the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** was conducted by the South Central Alabama Rural Transportation Steering Committee in a regular meeting on Wednesday, September 24, 2015.

NOW THEREFORE BE IT RESOLVED, this 24th day of September, 2014 that the South Central Alabama Rural Transportation Steering Committee does hereby approve the ***Guiding Principles of the South Central Alabama Rural Transportation Planning Process*** as the continuing guide for the proper functioning of the South Central Alabama Rural Transportation Planning Process.

Acting Chair

Attest:

South Central Alabama Rural Transportation
Planning Process Coordinator

Guiding Principles
Region 5: South Central Alabama Rural Transportation Planning Organization
Last Reviewed and Amended September 24, 2014. Amended to replace "consultation process" with "planning process" throughout document.

PREAMBLE

The following constitutes the procedures and responsibilities that will serve to establish, organize, and guide the proper functioning of the South Central Alabama Rural Transportation Planning Process. This organization shall carry out transportation consultation, planning and programming functions as set forth in any agreements entered into by this process by and between the South Central Alabama Development Commission and the State of Alabama Department of Transportation, the United States Department of Transportation, or in such manner as events shall dictate.

Section 1.0: Process Name, Organization Name, Guidance and Study Area

A. The name for the ongoing transportation process shall be the South Central Alabama Rural Transportation Planning Process.

B. Until such time as a formal rural planning organization is established, the South Central Alabama Development Commission (SCADC) will be the organization that conducts the South Central Alabama Rural Transportation Planning Process.

C. The SCADC will carry out the South Central Alabama Rural Transportation Planning Process under the guidance of the South Central Alabama Rural Transportation Steering Committee.

D. The study area for the South Central Alabama Rural Transportation Planning Process shall be the six counties of the South Central Alabama Region (Bullock, Butler, Crenshaw, Lowndes, Macon and Pike Counties).

Section 2.0: The Organizational Structure

A. The organization shall consist of one (1) steering committee, six (6) county advisory committees and six (6) stakeholder groups. The Steering Committee will be the South Central Alabama Rural Transportation Steering Committee. The advisory committees will be the County Rural Transportation Advisory Committee for each county in the region. The stakeholder groups will include six countywide groups of all rural transportation stakeholders, one for each county in the study area. Additional committees and subcommittees shall be formed as deemed necessary.

Section 3.0: General Policies

A. All general policies shall apply to all committees and participants of the South Central Alabama Rural Transportation Planning Process.

B. All reports, programs, and plans shall be presented to the South Central Alabama Rural Transportation Steering Committee for their review. The Steering Committee shall be afforded sufficient time to comment on drafts prior to action. Reports, programs, and plans become official process documents following approval by the Steering Committee as reflected in Steering Committee Meeting Minutes.

C. The South Central Alabama Rural Transportation Steering Committee and the South Central Alabama Development Commission shall proceed with their respective responsibilities and duties with proper consideration at all times, for all modes of transportation and associated facilities.

D. All studies undertaken in this process shall be coordinated with individual modal planning programs and with comprehensive planning efforts in the area.

E. Rural Transportation Planning Process activities shall be used to promote efficient development.

F. All published data and/or reports shall be made available to the public and agencies.

Section 4.0: Amendment of Guiding Principles

A. Any section herein contained may be amended at any meeting of the Steering Committee provided such amendment be delivered to the South Central Alabama Rural Transportation Planning Process Coordinator at least ten (10) days prior to the meeting at which the amendment is to be presented to the Steering Committee. It shall be the duty of the Planning Process Coordinator to include in the Steering Committee Meeting Notice, notice of the proposed amendment setting out the exact form of the proposed amendment. Such amendment shall be approved if it receives the affirmative vote of a majority of at least a quorum of the voting members present.

B. These rules shall be revised, updated, or amended as the circumstance dictates. This shall be the responsibility of the Rural Transportation Planning Process Coordinator.

RURAL TRANSPORTATION STEERING COMMITTEE GUIDING PRINCIPLES

Section 5.0: Purpose

A. The purpose of the South Central Alabama Rural Transportation Steering Committee will be to serve South Central Alabama as the decision making body for the South Central Alabama Rural Transportation Planning Process and to provide guidance to the South Central Alabama Development Commission in conducting the process.

Section 5.1: Responsibilities

A. To give overall guidance to the rural transportation planning process

B. To have overall responsibility for review and approval of all plans and programs which are developed by the rural transportation planning process

C. To assist in the identification of rural transportation stakeholders in each of the six counties of the South Central Alabama region

D. To recommend any other personnel necessary to fulfill and complete the duties and tasks relative to the South Central Alabama Rural Transportation Planning Process

E. To take action on recommendations and other matters pertaining to the rural transportation planning process

F. To approve rural transportation goals to guide the South Central Alabama Rural Transportation Planning Process

G. To submit plans and recommendations to participating agencies and obtain resolutions for adoption from governing agencies

H. To change the designated membership as deemed necessary

I. To insure that citizen participation is achieved in the rural transportation planning process

Section 5.2: Membership

A. South Central Alabama Rural Transportation Steering Committee:

1. Representative, Bullock County Commission
2. Representative, Butler County Commission
3. Representative, Crenshaw County Commission
4. Representative, Lowndes County Commission
5. Representative, Macon County Commission
6. Representative, Pike County Commission
7. County Engineer, Bullock County
8. County Engineer, Butler County

9. County Engineer, Crenshaw County
10. County Engineer, Lowndes County
11. County Engineer, Macon County
12. County Engineer, Pike County
13. Municipal Representative, Bullock County
14. Municipal Representative, Butler County
15. Municipal Representative, Crenshaw County
16. Municipal Representative, Lowndes County
17. Municipal Representative, Macon County
18. Municipal Representative, Pike County
19. ~~Sixth Division Engineer, Alabama Department of Transportation~~
19. Area County Transportation Engineer, Alabama Department of Transportation, Southeast Region – Montgomery Area
20. ~~Seventh Division Engineer, Alabama Department of Transportation~~
20. Area County Transportation Engineer, Alabama Department of Transportation, Southeast Region – Troy Area
21. Director, South Central Alabama Area Agency on Aging
22. Executive Director, South Central Alabama Development Commission

C. Appointments and Terms

1. County Commission and Municipal Representatives members will be solicited by the South Central Alabama Rural Transportation Planning Process Coordinator in a manner that ensures equitable representation of the South Central Alabama region. Members will serve until reappointed.
2. County engineers, representatives of the Alabama Department of Transportation, the Director of the South Central Alabama Area Agency on Aging and the Executive Director of the South Central Alabama Development Commission will serve terms on the committee coinciding with the terms of their respective offices.

D. Each member may name an alternate (in writing) who may exercise full member powers during the member's absence. The term of the alternate will expire upon the expiration of the member's term or upon written notice by the member. The member will be responsible for notifying the alternate of meetings.

E. Each member may name a proxy (in writing) for a particular meeting or vote. The proxy's power must be delineated in the written notice. The member is responsible for notifying the proxy of meetings.

Section 5.3: Officers

A. Officers of the South Central Alabama Rural Transportation Steering Committee shall be chosen from the committee membership.

B. The Chair shall be elected by the majority of the members in a duly constituted meeting and shall be an elected public official.

C. A Vice-Chair shall be elected by the majority of the members in a duly constituted meeting to serve in the Chair's absence or in case of the Chair's vacating elected office.

D. Election of officers shall be in the first quarter of each fiscal year (October – December).

E. The Rural Transportation Planning Process Coordinator will serve as the Executive Secretary on behalf of this committee in any other capacity desired by the committee.

Section 5.4: Meeting Procedure

A. The rules of order herein contained shall govern deliberations and meetings of the South Central Alabama Rural Transportation Steering Committee. Any point of order applicable to the deliberations by this committee and not contained herein shall be governed by Roberts Rules of Order.

B. The Rural Transportation Steering Committee shall meet at least twice every fiscal year.

C. Meetings will normally be initiated by the South Central Alabama Development Commission. When providing notification for a meeting, at least two weeks notice will be provided describing the time and location. A proposed agenda should also be provided to ensure that adequate preparation will occur. The 14 day notice may be waived if a majority of the members concur.

D. A quorum shall consist of the Steering Committee member present, their alternates or proxies. The member may designate proxies (in writing) if the member and the alternate will be unable to attend a meeting.

E. Voting shall be by voice vote; however, upon the request of at least one (1) member, voting shall be by roll call. In the event of a tie vote, the motion before the Steering Committee shall fail.

F. All meetings of the Steering Committee shall be open to the general public.

G. At the discretion of the Rural Transportation Process Coordinator and with the approval of the Chair of the Steering Committee a regularly scheduled meeting can be canceled. Notification of the cancellation shall be made at least three days prior to the date of the scheduled meeting.

H. The Chair may request a mail or FAX vote on issues already presented at previous meetings. This practice will be used only if federal and / or state imposed deadlines are an issue. A mail or FAX vote will be presented at the next scheduled Steering Committee meeting as part of the previous meeting minutes.

I. The presiding officer may move, second, and debate from the Chair and shall not be deprived of any of the rights and privileges of a member by reason of his/her acting as the presiding officer.

Section 5.5: Order of Business

A. The business of the committee shall be taken up for consideration and disposition in the following order, unless the order shall be suspended by the unanimous consent.

1. Call to order by Chair
2. Roll Call
3. Approval of minutes of previous meeting
4. Communications from the presiding officer
5. Report of officers and/or committees
6. Old Business
7. New Business
8. Invitation to interested persons wishing to be heard on matters not included in the agenda
9. Adjournment

COUNTY RURAL TRANSPORTATION ADVISORY COMMITTEE GUIDING PRINCIPLES

Section 8.0: Purpose

The purpose of the County Rural Transportation Advisory Committees will be to serve each county in the capacity of reviewing and prioritizing local rural transportation needs and issues, reviewing and guiding data collection for each county and making recommendations to the South Central Alabama Rural Transportation Steering Committee, as necessary, regarding local projects.

Section 8.1: Responsibilities

A. Give overall guidance to the rural transportation planning process within each county

B. Review plans and programs developed in the rural transportation planning process

C. Assist in the identification of rural transportation stakeholders in the respective county
D. Assist in the identification of rural transportation needs and issues for the respective county
E. Insure that citizen participation is achieved in the rural transportation planning process
F. Make recommendations, as necessary, to the South Central Alabama Rural Transportation Steering Committee regarding the inclusion and prioritization of local rural transportation projects and programs

Section 8.2: Membership
County Rural Transportation Advisory Committee members will be solicited by the South Central Alabama Rural Transportation Planning Process Coordinator in a manner that ensures equitable representation of each county. Members will serve until reappointed.

An appointed member may be replaced upon a member's resignation from the County Rural Transportation Advisory Committee or if a member fails to attend three consecutive meetings. The replacement committee member will be solicited by the South Central Alabama Rural Transportation Planning Process Coordinator in the same manner as the original County Rural Transportation Advisory Committee Members.

Section 8.3: Chair
A chair for each County Rural Transportation Advisory Committee shall be designated by the applicable County Commission Representative serving on the South Central Alabama Rural Transportation Steering Committee from the membership of the committee.

RURAL TRANSPORTATION PLANNING PROCESS COORDINATOR GUIDING PRINCIPLES

Section 9.0: Purpose
The purpose of the coordinator is to ensure that all requirements of the South Central Alabama Rural Transportation Planning Process are met.

Section 9.1: Designation
The Executive Director of the South Central Alabama Development Commission shall be the Rural Transportation Planning Process Coordinator for the South Central Rural Transportation Planning Process. In the absence of the Executive Director, that individual shall designate a staff member to serve as Coordinator.

Section 9.2: Duties
The Coordinator shall have the following specific duties:
A. To act as a liaison between the parties of the South Central Alabama Rural Transportation Planning Process and assist in various phases of the process.
B. To coordinate the process through the Rural Transportation Steering Committee and the six County Rural Transportation Stakeholder Groups.
C. To arrange meetings, set agenda, and serve as Secretary for the Rural Transportation Steering Committee and for the County Rural Transportation Stakeholder Group meetings.
D. To develop a Work Program as required.
E. To present suggested changes of the recommended plan to the Rural Transportation Steering Committee and others, as appropriate, for their consideration.
F. To provide staff and clerical assistance for Rural Transportation Planning Process activities.
G. To monitor transportation planning in the South Central Alabama area and report apparent conflicts to the Steering Committee.

South Central Alabama Rural Transportation
Planning Organization Steering Committee

RESOLUTION 15-02
Approval of the Public Involvement Plan of the
South Central Alabama Rural Transportation Planning Process

WHEREAS, the South Central Alabama Rural Transportation Planning Process Steering Committee was formed to facilitate consultation between local officials and the Alabama Department of Transportation; and

WHEREAS, it is the vision of the South Central Alabama Rural Transportation Steering Committee to establish a continuous and on-going rural transportation planning process that will aid in the identification of transportation needs and issues of the non-metropolitan areas of the South Central Alabama Region; and

WHEREAS, a public involvement process is necessary to have an open consultation process that encourages early and continued public participation, to provide access to data by the public, to receive public input, and to encourage participation in the planning process by low-income groups, minorities, persons with disabilities, and the elderly; and

WHEREAS, the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** outlines the strategies necessary to conduct a public involvement process that will aid in the aid in the identification of the rural transportation needs and issues of the South Central Alabama region; and

WHEREAS, an annual review and discussion of the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** was conducted by the South Central Alabama Rural Transportation Steering Committee at a regular meeting on Wednesday, September 24, 2015.

NOW THEREFORE BE IT RESOLVED, this 24th day of September, 2015 that the South Central Alabama Rural Transportation Steering Committee does hereby approve the ***Public Involvement Plan of the South Central Alabama Rural Transportation Planning Process*** as the on-going guide for the conducting a well-organized public involvement process for the South Central Alabama Rural Transportation Planning Process.

Acting Chair

Attest:

South Central Alabama Rural Transportation
Planning Process Coordinator

Public Involvement Plan
Region 5: South Central Alabama Rural Transportation Planning Organization
Last Reviewed and Amended September 24, 2014. Amended to replace "consultation process" with "planning process" throughout document.

VISION STATEMENT

It is the vision of the South Central Alabama Rural Transportation Steering Committee to establish a continuous and on-going rural transportation planning process that will aid in the identification of transportation needs and issues of the non-metropolitan areas of the South Central Alabama Region.

GOALS

I. Open Process
It is the goal of the South Central Alabama Rural Transportation Steering Committee to have an open planning process that encourages early and continued public participation.

II. Information Access
It is the goal of the South Central Alabama Rural Transportation Steering Committee to provide complete and timely information regarding the plans, programs, procedures, policies, and technical data produced or used during the planning process to interested parties and the general public.

III. Notice of Activities
It is the goal of the South Central Alabama Rural Transportation Steering Committee to provide timely and adequate public notice of hearings, meetings, document reviews, and document availability.

IV. Public Input and Committee Response
It is the goal of the South Central Alabama Rural Transportation Steering Committee to demonstrate consideration and recognition of public input and to provide appropriate responses to public input.

V. Inclusive Process
It is the goal of the South Central Alabama Rural Transportation Steering Committee to encourage participation in the planning process by low-income groups, minorities, persons with disabilities, and the elderly; and to consider the needs of these groups when developing programs and plans.

STRATEGIES

A. The South Central Alabama Rural Transportation Steering Committee will develop and follow a Public Involvement Plan and review the plan at least every five years.
Goals Addressed: I, II, III, IV, V

B. The South Central Alabama Rural Transportation Steering Committee will maintain a Rural Transportation Stakeholder List in each of the following six counties: Bullock, Butler, Crenshaw, Lowndes, Macon and Pike.
Goals Addressed: I, II, III, IV, V

C. All meetings of the South Central Alabama Rural Transportation Steering Committee and the County Rural Transportation Advisory Committees will be open to the public and will provide non-committee members an opportunity to participate in the planning process.
Goals Addressed: I, IV, V

D. The South Central Alabama Rural Transportation Steering Committee will provide notice for all county Rural Transportation Stakeholder meetings. The notice will include the meeting purpose, date, time, and location of the meeting. The notice will be provided to local media representatives

and groups that address the needs of low-income groups, minorities, persons with disabilities, and senior citizens.
Goals Addressed: I, II, III, V

E. The South Central Alabama Rural Transportation Steering Committee will provide a notice for all Rural Transportation Stakeholder Meetings to groups that address the needs of persons with disabilities. The notice will include the meeting purpose, date, time, and location of the meeting. The notice will request that interested individuals, who need special accommodations, notify the South Central Alabama Rural Transportation Steering Committee prior to the date of the meeting so necessary arrangements can be made. The South Central Alabama Rural Transportation Steering Committee will follow all of the requirements of the Americans with Disabilities Act.
Goals Addressed: I, II, III, IV, V

F. The South Central Alabama Rural Transportation Steering Committee will consider all legitimate inquiries and comments regarding transportation planning activities. When warranted, a written response will be provided.
Goals Addressed: I, IV, V

G. The South Central Alabama Rural Transportation Steering Committee will maintain a record of public involvement. The record will document the public involvement activities of the South Central Alabama Rural Transportation Steering Committee and the County Rural Transportation Stakeholder Committees.
Goals Addressed: I, II, IV

H. The South Central Alabama Rural Transportation Steering Committee will make available to the general public and government agencies all documents and appropriate technical data produced for the transportation planning process.
Goals Addressed: I, II, IV, V

I. The South Central Alabama Rural Transportation Steering Committee will encourage the publication of news articles on the transportation planning process.
Goals Addressed: I, II, III, V

J. The staff of the South Central Alabama Development Commission will be available for speaking engagements concerning the transportation planning process.
Goals Addressed: I, II, III, IV, V

PERFORMANCE MEASURES

1. What was the attendance percentage of the South Central Alabama Rural Transportation Steering Committee Meetings?
   Strategy Measured: C
2. What was the attendance at each of the County Rural Transportation Stakeholder Meetings?
   Strategy Measured: B, D, E
3. How many citizens who were not elected officials, local government employees or transportation agency employees attended stakeholder committee meetings? What was the ratio of citizens to elected officials and employees?
   Strategy Measured: B, D, E
4. What was the ratio of attendance at stakeholder meetings to meeting notices mailed?
   Strategy Measured: D
5. How many standing committee meeting notices were posted in the local newspapers?
   Strategy Measured: D
6. How many meeting notices were posted in public places?
   Strategy Measured: D
7. Was the mailing list updated annually or more frequently?
   Strategy Measured: D, E

8. What was the ratio of requests for special meeting accommodations to special arrangements made?
   Strategy Measured: E

9. How many persons with disabilities attended stakeholder meetings? What percentage of meeting attendees were persons with disabilities?
   Strategy Measured: E
10. How many complaints regarding the transportation planning process were received?
    Strategy Measured: F
11. What was the ratio of inquiries or comments to responses?
    Strategy Measured: F
12. Was the record of public involvement produced?
    Strategy Measured: G
13. How many documents were produced?
    Strategy Measured: H
14. How many documents were available on the web site?
    Strategy Measured: H
15. How many requests for information were received (in-person, by telephone, and by mail)?
    Strategy Measured: H
16. How many documents were distributed?
    Strategy Measured: H
17. How many newspaper articles were published on the transportation planning process in the local newspapers?
    Strategy Measured: I
18. How many speeches or presentations did the staff provide?
    Strategy Measured: J
19. Was the Public Involvement Plan produced / updated?
    Strategy Measured: A
20. How frequently was the Public Involvement Plan reviewed?
    Strategy Measured: A

FY 2014-2015 Rural Transportation Needs and Issues Review

Bullock County Citizen-Identified Rural Transportation Needs and Issues – 2015

1	CR 149	Road is in appalling condition; even has sign that says “ROUGH ROAD”. Grass is so high that wildlife, such as deer, is not visible. (2 citizen comments).
2	CR 2	Potholes. Needs to be paved. Someone put a fence on the right of way.
3	CR 3	Potholes. Needs to be paved. Someone put a fence on the right of way.

September 2014

#	Location	Description
	REPAVING	
1	CR 53	Road needs to be repaved.
2	Foster Rd	Off US 82 East, past Bullock Correction Facility. Roads are in dire need of repaving. Poor Condition
3	CR 59	Off US 82 East, past Bullock Correction Facility. Roads are in dire need of repaving.
4	CR185, betw CR37 and AL110	Needs repaving. Even gravel would be better than what it is now.
5	CR176, betw CR7 and CR37	Needs repaving. No work in 25 to 30 years.
6	CR35, betw US82 and CR34	Needs resurfacing.
8	CR30	Needs work, especially at beginning of road. Has been patched, but not smooth.
9	CR7, N of AL110	Renamed to Fitzpatrick Road. Needs to be repaved between AL110 and Macon County Line. When bridges were fixed on AL110, traffic was re-routed on CR7 and never fixed after trucks tore it up.
10	CR 106	Repaved - lots of potholes and patches due to a lot of truck driving
11	CR177	Road needs resurfacing.
12	Depot Road	Roads in City of Midway exhibit severe drainage issues. Approximately 99 percent of streets need resurfacing.
14	Hall Street	Roads in City of Midway exhibit severe drainage issues. Approximately 99 percent of streets need resurfacing.
15	Cooper Street, USA	Road needs to be repaved.
16	Greenwood Street, USA	Road needs to be repaved.
17	Grove Circle, USA	Road needs to be repaved.
18	Hanson Street, USA	Road needs to be repaved.
19	Hardaway Street, USA	Road needs to be repaved.
20	Levy Street, USA	Road needs to be repaved.
21	Hicks Industrial Park Road	Leads to local industrial park and needs to be resurfaced. Potholes
22	Parker Street	Road needs to be repaved.
23	CR18	Needs resurfacing.
	BRIDGE IMPROVEMENT	
24	Parker Street	Bridge improvement behind Poe's; Flood-prone; culverts washed out.
25	Hardaway Street	Conecuh River Bridge needs larger culverts; Repeated flooding.
26	Peachburg Road	Town Creek Bridge needs larger culverts; Repeated flooding.
	ROAD IMPROVEMENT NEED	
27	CR104	(Hardaway Church Road) The County has resurfaced the road in three areas. Each area will cause your car to be out of alignment. If a car is traveling in front of you, rocks will hit your car or windshield.

28	County Rd. 59	Location: 82 East—Continue East through Union Springs, AL, past the National Guard Armory, and the Prison until reaching the Kingdom Hall on right side of rd. Turn right onto Foster.
29	AL 223	Poor road condition
30	CR 49	Potholes
31	CR8	Potholes between Perote and Sellers Crossroads -- some are often filled and quickly renewed. Roadway is dangerous -- needs to be closed. Have to drive on side, not cutting right of way and debris is not removed after clearing trees.
32	CR 47	Road to Wehle Nature Center needs to be improved due to gaping holes. This is important to economic development. Many visitors complain of road conditions.
33	CR 7	Shoulders are absent and dug up in places. Road is narrow. Patching is rough. Needs to be repaved -- Sink holes and pot holes.
34	CR 40	Waterfall causes flooding of roadway. City of Union Springs has to drain roadway.
35	CR14, betw AL223 and CR7	Widen and resurface
36	CR34, betw CR35 & US82	Widen and resurface
37	CR37	Widen and resurface between US82 and Montgomery County Line
38	Sanders Court,	Off AL 223, Union Springs. Road needs to be paved. Five homes on street which is accessed by Abby Avenue, which a gravel route. Have trouble getting in and out, especially in rainy weather
39	Chunnennuggee Street	Road needs to be repaved and drainage issues corrected.
40	Tye Avenue	Union Springs, Poor road condition
41	Ellis Avenue	Union Springs, Potholes
42	Esquire Drive	Union Springs, Poor road condition
43	CR 52	Poor road condition
44	CR 41	Bad flooding
45	CR 142	Needs repaving and maintenance, has potholes, flooding problems
46	CR 115	Needs repaving and maintenance, has potholes, flooding problems
47	Ponderosa Road	Poor road condition
48	Daniel Road	Off US 29 South
	TRANSIT	
49	Bullock County	Public transportation is needed for citizens who reside in rural areas.
50	Bullock County	The elderly and disabled do not have transportation and they are being exploited out of their money.
51	Hardaway Church Road	Enon Community. There are several people (elderly) who cannot drive and could use public transportation in this area.
52	Rural areas throughout Bullock County	Transportation needed for JOBS clients to get back and fort to employment sites that are located in different areas of Bullock County.
	GENERAL COMMENTS	
53	Bullock County	Several roads are dirt making it difficult to drive on. Some of the paved roads are like only asphalt with pot holes.
54	Collector Surface Roads	All county collector road needs surface improvements. Need additional funds for improvements to minor collectors.
55	Bullock County, District 1	County roads shoulders are overgrown and cannot see the road. Need signage on all roads.
56	Bullock County	Need a 4-lane access route in the west part of the county to tie into I-85 near Tallassee and US231 near Brundidge
57	Prairie Street North and South, DT Union Springs	Hard to grow tourism or any other tax-generating business when first impressions due to road conditions are so poor!

58	Prarie-Hardaway-Conecuh-Powell Block	Reroute truck traffic from downtown area.
59	Bullock County	Almost every road is in dire need of improvements; many with potholes. County gets claims from people about cars getting messed up by roads.
60	Bullock County, District 4	Lack of funds to maintain roads; Many potholes. Lack of equipment to address poor infrastructure
61	Bullock County	Roads are in bad shape with pot holes and flooding, and resurfacing needs. Lack of funding sources and ideas of getting funding.
62	Bullock County	Dirt roads are washing out.
63	Bullock County	Problem is how to improve roads with dwindling fuel sales and income.
64	US 82 and US 110	Both highways have been improved and those improvements have been fabulous!

Butler County Citizen-Identified Rural Transportation Needs and Issues – 2015

1	East Railroad Avenue, Georgiana	Road needs to be paved and widened with adequate drainage. It is a narrow dirt road with tree limbs hanging over road and no ditches for proper drainage flow. It has potholes, washes and mud puddles. Overgrowth is damaging to vehicles. Service vehicles get stuck in the mud and ditches. Garbage trucks further tear up the road.
2	Rocky Street, Georgiana	Road is not being graded enough and is not wide enough for two cars. Poor visibility at intersection of Rocky Street and US 31 due to limbs and branches. Need yield or stop sign for traffic on US 31 at Rocky Street.
3	Rocky Lane, Georgiana	
4	AL 106/US 31	Bushes and trees need to be trimmed back for visibility on road and curves.
5	Rocky Street and Rocky Lane	Need a sign for traffic and school buses
6	CR 6, South Garland to US 31	Needs to be resurfaced.
7	CR 47	CR 47 needs to be resurfaced from intersection of CR 51 to AL 55
8	Sellers Street, McKenzie	Needs to be resurfaced due to heavy school traffic
9	CR 47	Need turning lanes at CR 47 and AL 55
10	US 31/AL 55	Need turning lanes at US 31/AL 55
11	CR 8	Need turning lanes at US 31/AL 55 and CR8
12	AL 106	Needs resurfacing. Has bad patchwork and affects 38 families.
13	CR 7 – Butler Springs Road	Is in terrible condition. Hasn't been paved in a very long time.
14	CR 37	Needs to be repaved.
15	CR 39	Needs to be repaved.
16	CR 48	Needs to be repaved.
17	CR 57 (dirt portion)	Needs to be repaved.
18	CR 23	Needs to be repaved.
19	CR 54	Needs to be repaved.
20	CR 7	Needs to be repaved.
21	CR 15	Needs to be repaved.
22	CR 38	Needs to be repaved.
23	CR 11	Needs to be repaved.
24	CR 41 (northern portion)	Needs to be repaved.
25	CR 32	Needs to be repaved.
26	CR 43	Needs to be repaved.
27	CR 69	Needs to be repaved.

September 2014

#	Location	Description
	REPAVING	
1	Scott Road	Portion of road needs to be paved. Pavement stops and turns into a dead-end.
2	Vickery Road	Unpaved road serving high number of residents. Needs paving.
3	CR 54	Needs to be repaved -- have to drive in the middle. Senior bus has problems with driving down the road
4	Grace Avenue	Needs to be repaved.
5	CR 47	Needs to be repaved.
	ROAD IMPROVEMENT NEED	
6	Butler Estates	Butler Estates Road is a badly deteriorated paved road with overlying patches, potholes, cracks, and depressions. The lack of sidewalks and heavy pedestrian traffic make it especially dangerous.

7	Vickery Road	Vickery Road is a narrow, dirt road, with sharp curves and significant drainage issues. It is the location of many work orders and traffic accidents.
8	AL 10 West	Major drainage issues, frequent flooding, prevents access to hospital
9	AL10	Replace culvert/pipes on Highway 10 at Industrial Drive and cemetery. Any heavy rain causes flooding
10	CR 43 (Poorhouse Rd)	Road repair is needed.
11	Intersection of Halso Mill Rd and US 31	Unsafe intersection
12	McKenzie Grande Road	Potholes
13	Rocky Street, Rocky Road	Flooding and washing of roadway.
14	South Conecuh Street	Potholes
15	Avent Loop and Road	Georgiana. Potholes, very bad shape
16	Rocky Road, Rocky Lane	Very difficult for residents to enter intersection of US 31 and AL 106. Rocky Road is the 5th point
17	Rocky Road, Rocky Lane	Congestion -- At time two to three vehicles are lined up to get in or out of this road because it is so narrow at spots, especially the entrance/exit of Rocky Road in Georgiana. The only way we can pass is to pull into the first driveway as we enter and exit. This is dangerous!
18	Rocky Road, Rocky Lane	Rocky Road has never been paved and we do not get repairs. The last time the road was graded or scraped, we, the citizens that live there, had to call the Road Commission because the potholes got so large. It still took them weeks to get here.
19	Rocky Road, Rocky Lane	Bushes and limbs need to be cut back. We cannot see good in spots. This used to be done each year before school starts.
20	Rocky Road, Rocky Lane	Heavy or extended rain will cause the wash from the road to run under my house and from the ditch to the yard.
21	CR 37	Road has big potholes. Road is going out due to big trucks.
22	CR 37	Ditches need to be cleaned. Water in the road when it is raining.
23	Avant Loop/Road, Georgiana	Road is in very bad shape with potholes
24	Glendale Ave., Greenville	Needs to be repaired
25	Honeysuckle Road	One way road with potholes and drainage problems. Paved, but dirt washed.
26	Abrams St, Georgiana	Has potholes and cracks; speed bumps need to be painted
27	E. Railroad Ave., Georgiana	Potholes
28	Miranda Avenue	Potholes
29	Ellis Street	Bad road
30	Darby Avenue	Bad road
31	North Jane Avenue, Georgiana	Needs to be repaired
32	Veneer Mill Road	Part city and part county -- potholes
33	North Railroad Avenue	Part city and part county -- needs a lot of work
	TRANSIT	
34	Senior Citizen Services	Limited services for senior citizens. Cab is costly. Need something to meet needs of people on limited incomes to get to places beyond nutrition sites. Would like public transportation.
35	Senior Citizen Services	No public transportation for the elderly in Butler County
36	Countywide	Senior services transportation to pharmacies, DHR, groceries. Need public bus system -- also for employment.
37	Disabled Services	Need services for disabled persons with wheelchair facilities. City is on the grow, but transportation services are lacking. Also, let people know of services and facilities that are available now.

38	Regional Services	Need transportation services to travel regionally, especially to Montgomery.
	GENERAL COMMENTS	
39	Butler County	Big trucks eat up the roads. A consideration should be to tax timber trucks
40	All County Roads	All paved roads needs center stripes at a minimum. Roads are difficult to see at night. Side striping would be even better.
41	Countywide	Pave dirt roads. New busses are being torn up and beat to death by dirt roads.
42	Countywide	Paving starts in August in worst areas.
43	Countywide	Moving concrete mailboxes complicates repaving and widening
44	Countywide	A lot of the county roads need repair

Crenshaw County Citizen-Identified Rural Transportation Needs and Issues
September 2014

#	Location	Description
	REPAVING	
1	CR83	Needs to be resurfaced between CR43 and southern portion.
2	Garnersville Road	A dirt road that is carrying a high volume of traffic to Dongwon. Needs to be paved.
3	Crenshaw County	Pave dirt roads
4	North Jackson St, Rutledge	Needs paving badly
5	South Jackson St, Rutledge	Needs paving badly
6	Ryan St, Rutledge	Needs paving badly
	ROAD IMPROVEMENT NEED	
7	Tucker Road,	Need full depth reclamation of 1.9 mile section of Tucker Road
8	AL10	4-lane between Luverne and Greenville.
9	AL189	Dangerous road due to flat curves.
10	CR 39	Extreme rough patches in road. Pot holes, depressions and falling shoulders.
11	CR 41	Extreme rough places in road. Pot holes, depressions and falling shoulders.
12	CR39	Needs to be on-system - reclassified as a major collector road.
13	CR50 - CR31 - CR35 - AL10	Upgrade to an adequate detour route from US331. Incident caused significant damage to road and had a wreck on the detour.
14	CR57	Needs to be on-system - reclassified as a major collector road.
15	Outer Loop	Is there a planned exit on the Outer Loop to U.S. Highway 331
16	US29	4-lane between Luverne and Troy
17	US331 South	Need light in front of McDonald's.
18	Rutledge Loop Road	Narrow and grass between cracks
19	Third St, Rutledge	Has potholes and needs to be repaved
20	Fourth St, Rutledge	Has potholes and needs to be repaved
21	US 331	Has potholes and needs to be resurfaced and shoulders improved
22	Burnout Road	Washout and needs resurfacing
23	Mulberry Road	Needs work
	TRANSIT	
24	Dozier	Need for elderly transportation.
	GENERAL COMMENTS	
25	US Hwy 331	It is a priority for Crenshaw County is to have U.S. Highway 331 four-laned all the way to Luverne as soon as possible to facilitate truck traffic to industries. Getting Highway 331 four-laned is very important for the future economic development of Crenshaw County. This is a hurricane evacuation route and needs to be improved to handle traffic.
26	All County Roads	Paving -- More dirt roads in Crenshaw County than paved roads.
27	Countywide	Address how detour routes are defined and "called".
28	Countywide	Overloaded trucks are tearing up roads throughout the county.
29	All County Roads	Speeds on county roads are the primary factor in accidents. Statewide, 40 percent of all accident fatalities are on a county-maintained roadway.
30	Countywide	Roads in the county need repair
31	US 331	Need to change US Highway 331 to four lanes for economic development

Lowndes County Citizen-Identified Rural Transportation Needs and Issues
September 2014

#	Location	Description
	REPAVING	
1	Hayneville	Streets in Hayneville need resurfacing
2	Cassidy Road	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
3	Gilmer Hill Road	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
4	Golson Road	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
5	Hill Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
6	Jones Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
7	Lee Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
8	Milner Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
9	Oak Street	Needs resurfacing
10	Old Letohatchee Road	Needs resurfacing
11	Race Track Lane	Needs resurfacing
12	Roger Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
13	South Pollard Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
14	South Street, Hayneville	Needs resurfacing and paving.
15	Highway 80	Needs to be repaved.
16	Julian Town Road	Needs to be repaved.
17	CR 33	Needs repaving
18	CR 45	Needs resurfacing
	BRIDGE IMPROVEMENT	
19	CR 23	Bridge area is unsafe and deteriorated. Shoulder is deteriorated.
	ROAD IMPROVEMENT NEED	
20	Julian Town Road	Rough road
21	McGhee Road	Potholes
22	CR 12	Some areas are rough and dangerous
23	Atchinson Road	Off CR26. Pavement.
24	Barnie Road	Off CR33. Pavement.
25	Muscatt Road	Gravel road that needs to be paved.
26	Chicken Pit Road	Off AL97. Pavement.
27	Collirene Cutoff Road	Off CR 12. Pavement.
28	CR 32 (Mason Rd), CR 37 from CR 32 to CR 26, CR 26 from CR 32 to Tyson Rd	There are several county roads near my residence were cross slope corrections are badly needed. The cross slopes are bad enough that it is dangerous to travel these sections of roadway at the posted speed limit of 45 mph. These conditions tend to throw the vehicle into the roadside ditch or onto oncoming traffic.
29	CR12	Huge potholes causing road travel to be hazardous for motorist travel.
30	CR17	Road needs paving and widening. Need warning of deer on the roads and light on the roads.
31	CR21	Between Frederick Douglas Road and US80. An increasing number of accidents and fatal accidents.

32	CR23	Needs resurfacing and needs lighting and signage for deer crossing.
33	CR26	Increasingly more heavily traveled, especially between CR6 and county line. More residential growth.
34	CR33	Huge potholes causing road travel to be hazardous for motorist travel. Needs repaving.
35	CR45	Huge potholes causing road travel to be hazardous for motorist travel. This road is also becoming heavily flooded. Needs resurfacing.
36	Crews Road	Off CR 26. Pavement.
37	Dirt Road off CR6, bordering Montgomery County	Pavement improvements needed.
38	Farmersville Road	Pavement.
39	Academy Lane	Holes in the road
40	Hayneville	Drainage improvements are needed to prevent flooding.
41	Hayneville	Town is starting to experience a high amount of flooding in District A on Race Track Lane.
42	Hill Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
43	Jones Hill Road	Off AL21. Pavement.
44	Jones Street	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
45	Judge Road	Off CR26. Pavement.
46	Knight Place Road	Off CR45. Pavement.
47	Lum Road	Between CR33 and CR45. Pavement.
48	Mims Road	Off CR26. Pavement.
49	Mt. Pleasant Road	There is about 0.5 mile stretch of paved road that is in terrible shape -- must see it to believe.
50	Mushatt Road	Off CR33. Pavement.
51	North CR 37	Currently under construction.
52	Old Calhoun Road	Fort Deposit. Roads need paving, potholes repaired and resurfacing.
53	Pierce Road	Off CR12. Pavement.
54	Pine Street and Race Track Area	Streets need resurfacing and drainage.
55	Plantation Road	The Lowndes County portion of Plantation Road hasn't been worked on in years.
56	River Road	Off Robinson Switch Road. Needs to be paved. Serves about 100 people. Dust is horrible. When raining, hard to get in and out to get to work.
57	River Road	Dirt road has caused many chipped windows and is very dangerous when we have lots of rain.
58	Robinson Switch Road to River Road	The road is very rough and damaging to all vehicles going in and out of our property.
59	Salem Church Road, Ramah Church Road, Jenkins Road	Pavement.
60	Sellers Road	Off AL21, past Bill Jones Store. Pavement.
61	South CR 37	Extreme Washout and Landslide. No pavement left.
62	Streets in Hayneville District B	One dirt road in the area that needs paving.
63	Streety Road	From US80 to AL97. Pavement.
64	The Bend	Off CR41. Pavement.
65	Woodruff Road	Off AL21. Pavement.
66	Julian Town Road	

67	Lowndes County	Need more accessibility for residents
68	Pollack Street	Has cracks, potholes and drainage issues
69	Rodger Street	Potholes
70	Jones Street	Potholes
71	Downtown Streets	Fort Deposit. Streets are 50 years old and need repair.
72	McGhee Road	Potholes
73	CR 12	Some areas are rough and dangerous
74	Muschatt Road	A gravel road. Needs to be paved.
75	Frederick Douglas Road	This is a tourism road with potholes. Big trucks drive on the road and cause road condition to decline.
76	Academy Lane	Holes in the road
	TRANSIT	
77	All dirt roads in County	Lack of paved roads in Lowndes County. Public transportation can't access the elderly.
78	Hayneville	Sidewalks are needed for pedestrians.
79	White Hall and Trickem	No public transportation at all.
	GENERAL COMMENTS	
80	Countywide	Need more accessibility for residents
81	Countywide	Potholes in county roads
82	Countywide	Big trucks mess the roads up

Macon County Citizen-Identified Rural Transportation Needs and Issues
September 2014

#	Location	Description
	REPAVING	
1	CR 9	Needs resurfacing. There is a lot of residential growth in the Chesson area combined with timber/logging traffic. Between CR4 and CR2, the road needs to be straightened; between CR2 and US80, a bridge needs to be replaced.
2	CR 24	Needs resurfacing
3	CR 31	Needs resurfacing
4	CR 71	Needs resurfacing
5	CR 91	Needs resurfacing
	BRIDGE IMPROVEMENTS	
6	AL 49	State 49 bridge safety railings are rusted and need repair or paint guard rail.
7	CR 22	Road needs to be widened. Bridge repairs needed.
8	CR 73	Bridge needs to be replaced.
9	CR 40	Needs resurfacing. Bridges need to be replaced. Road is in very poor condition. High traffic area. This portion of road is used as an alternate for I-85 and as a major employment route to VictoryLand. The road is filled with potholes and patches and two to three bridges need to be replaced. There is a hole in the middle of one bridge that is repeatedly being filled.
10	CR13	Replace bridge and widen this road. The road serves a lot of hunting traffic and is a main access road to CR2 to get to Union Springs
11	CR 9, from CR30 to US80	Needs widening and bridge improvement
12	I-85	Needs bridge widening, resurfacing, and a concrete median placement.
13	I-85	Bridges and narrowness of median contribute to repeated head-on collisions.
14	I-85	Bridges need to be replaced and widened. There is no breakdown lane.
15	I-85, MM 20 to MM 47	Road needs to widened at bridges.
	ROAD IMPROVEMENT NEEDS	
16	AL 49 and CR 36	State 49 & County Road 36 need traffic signal and street light.
17	AL 49, Franklin	Growth on side of roads that needs to be cut back. State highway 49 from I-85 exit 32 to Tallapoosa line no speed limit signs. Fire dept needs emergency traffic signal.
18	Washington Avenue	1812 Block. A spot that may have been dug up leaving a bad dip where cars drive to the other side of the road to avoid. It's on a hill where you can't see what's coming. 2200 Block. Several holes in one spot that have been filled with gravel and paved partially on numerous occasions but still continues to come uncovered. Cars drive to the other side of the road to avoid but this too is very dangerous even dangerous coming out of my driveway because cars are on the wrong side of the road.

19	AL 81	Need a traffic light rather than a stop sign in downtown Tuskegee. Between I-85 and US 80, there are steep drain ditches on both sides of the road that present a safety issue. This road should be widened to 18-feet. It is congested during events and does not provide a straight shot to Tuskegee.
20	Chappie James Dr.	Need road improvements around airport. Lights needed
21	CR 2	Needs to be hard surfaced and improve drainage.
22	CR 26 and US 29	Road in need of lights.
23	CR 50	(Dirt roads) Road needs to be widened and graded.
24	CR12	Potholes. Narrow - used by school busses and is not wide enough for a bus and another vehicle to pass.
25	CR18	This is a narrow and curvy residential road that is used as the 'Tuskegee Bypass' to avoid downtown Tuskegee. By using CR45 and CR18, vehicles can access US80 from US29 and avoid the US80/US29 intersection at the Tuskegee Square. This route is often used by timber trucks.
26	CR46	Potholes and patches in blacktop.
27	CR56	Used to be blacktop; Now has patches on clay and blacktop. Filled with holes. Is a danger to cars and people. Heavily traveled to access I-85. Worst section is between AL49 and AL199
28	CR60	Road bed is not wide enough for a bus and a car to pass. Potholes. Shoulders are eroding and washing.
29	CR65	Construct a new interchange at CR65 and I-85. Construct a new road from CR65 from I-85 to provide more direct route to Tuskegee University and Veterans Hospital.
30	CR97	Construct a new interchange at CR 97 and I-85. For industrial and residential purposes.
31	Ellis Road	A dirt road that needs paving.
32	Old Federal Road	This main road in Shorter needs milling, widening, redraining and paving.
33	South Church St.	Patch road that is bumpy throughout and really narrow.
34	US29	A truck route is needed to bypass US29 in downtown Tuskegee and particularly at the Tuskegee Square. 4-Lane these roads to provide a viable alternative route to Interstate 85 when necessary. Busses and trucks cannot make the right turn from US80 to US29 with oncoming traffic to get the school, Board of Education, etc., that is located further south on US29.Further, there is not good signage to forewarn of upcoming conditions.
35	I-85	Steel cable separating north and south bound lanes needs to be cement wall.
36	I-85 - Shorter exit	In the median, needs to be cement barrier.
	TRANSIT	
37	Macon County	Need for public transportation assistance.
38	CR 53, CR54	Bicycle lane needed.
	GENERAL COMMENTS	
39	US 80	Need to complete four-laning to Montgomery.

Pike County Citizen-Identified Rural Transportation Needs and Issues – 2015

1	CR 6647	Potholes need to filled and right of way maintained. The road is narrow and log trucks and other big trucks causing damage.
2		
3		

September 2014

#	Location	Description
	REPAVING	
	BRIDGE IMPROVEMENTS	
1	Bridge over Indian Creek on CR 2214	The bridge is closed to heavy vehicles which includes our school buses. I have spoken with the Pike County Road department on numerous occasions and have been told that the funding required to make the repairs needed is just not there. We have to detour 9 school buses daily which adds nearly 1,700 extra miles weekly incurring extra fuel cost of $510.00 weekly, as well as excess maintenance costs on buses. The fact that we are already in pro-ration makes these additional expenses especially difficult to absorb. This also causes some of our students and parents to have to wake up extra early to catch the bus. In some cases it also extends the overall trip into an excessively long time to be on a school bus and frequent tardiness. Many students are missing breakfast at school because of the extra time it takes us to detour. Other students are being driven to school by their parents because of the earlier times they would have to ride the bus in the morning. If there were anything that you could do to help this situation it would be greatly appreciated by all parties concerned. Thank you in advance for your help and consideration in this matter.
2	CR2214 (CR25)	Posted bridge. The bridge is a 6-ton bridge causing 12 busses to detour approximately 30 miles per day for each bus.
3	CR6618 (CR44)	Posted bridge. The bridge is a 6-ton bridge causing 1 bus to detour approximately 8 miles per day.
	ROAD IMPROVEMENT NEEDS	
4	City of Brundidge	Truck problems. Trucks are coming through downtown area. Heavy traffic on Hwy. 10
5	CR 6616	Dirt road off of AL223 with multiple potholes that need gravel. Difficult to get up and down hills.
6	CR2214 (CR25)	Narrow paved road. This road is the primary road between Troy and Goshen. Can't pass two busses safely; and it is even difficult for a bus and a vehicle to pass each other.
7	CR6	Between US231 and AL87. Needs to be upgraded to a State-maintained road. It connects two highways and carries traffic to the Wal Mart Distribution Center.
8	CR6 and CR41	Limited visibility in turning left onto CR6 from CR41.
9	CR7747	Dirt road that needs gravel.
10	Gibbs Street and Elm Street	Congestion is caused by traffic flow between the elementary school and the middle school and made even worse by traffic backed by passing trains.

11	Intersection of AL10 and AL93	Intersection is too small/narrow to allow a right hand turn from AL10 to AL93. Also, in turning right on Al10 from AL93.
12	Lynwood Road	Road has bumps, potholes, depressions and is very rough.
13	US 231	Congestion is horrible. Absolutely impossible to enter traffic thoroughfare.
14	US231 to Enzor Road	A connector road (new alternate route) is needed between US231 and Enzor Road. This road would connect the SportsPlex and new residential developments to US231. A new connector road would relieve some of the stress at the intersection of US231 and AL87.
15	Wallace Drive	City of Troy has no school buses. Traffic is just awful. Takes 30 minutes just to pass through.
16	Walnut Street and 3 Notch Street	Road designated parking places painted too close to intersection, close to Cinco Drugs. Causes congestion -- can't turn.
	TRANSIT	
17	Pike County	Need for public/elderly transportation.
18	Troy City Roads	Infrastructure in Troy is not suitable for bus traffic. The roads are too narrow and intersections are too small or tight.
	GENERAL COMMENTS	
19	Dirt Roads throughout County	Potholes are in all county dirt roads. Need limbs trimmed. Limbs are slapping side of school busses and busting the windows out of the busses. Grass growing on the side of the roads to a point that roads no longer drain. In wet conditions, this causes hydroplaning and wrecks.

South Central Alabama Rural Transportation
Planning Organization Steering Committee

RESOLUTION 15-03
Approval of the 2016 South Central Alabama Human Services Coordinated Transportation Plan

WHEREAS, public transportation and public transit continue to be identified by local citizens in the South Central Alabama Region as primary rural transportation needs and concerns; and

WHEREAS, the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** has been developed to reflect the unmet needs and strategies for the provision of coordinated transportation services in the South Central Alabama Region; and

WHEREAS, the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** has been duly reviewed and discussed by the Steering Committee of the South Central Alabama Rural Transportation Planning Organization.

NOW THEREFORE, BE IT RESOLVED, this 24th day of September, 2015, that the Steering Committee of the South Central Alabama Rural Transportation Planning Organization does hereby adopt the ***Region 5 - South Central Alabama Human Services Coordinated Transportation Plan, 2016*** as a guideline for rural public transportation and public transit in the South Central Alabama Region.

Acting Chair

VISION STATEMENT

Establish a continuous and on-going rural transportation planning process aiding in the identification of transportation needs and issues

GOALS

I. Open Process
II. Information Access
III. Notice of Activities
IV. Public Input and Committee Response
V. Inclusive Process

STRATEGIES

PERFORMANCE MEASURES

Public Involvement Strategies:

A. *Develop and follow a Public Involvement Plan; Review the plan at least every five years*

B. *Maintain a Rural Transportation Stakeholder List in each of the six counties.*

C. *All committee meetings open to the public. Provide non-committee members an opportunity to participate in process.*

D. *Provide notice for all county Rural Transportation Stakeholder meetings. Provide notice to local media representatives and groups that address the needs of low-income groups, minorities, persons with disabilities, and senior citizens.*

E. *Provide a notice for all to groups that address the needs of persons with disabilities. Follow all of the requirements of the Americans with Disabilities Act.*

F. *Consider all legitimate inquiries and comments regarding transportation planning activities. When warranted, a written response will be provided.*

G. *Maintain a record of public involvement.*

H. *Make technical data available to the general public and government agencies.*

I. *Encourage the publication of news articles on the transportation planning process.*

J. *Be available for speaking engagements concerning the transportation planning process.*

Human Services Coordinated Transportation Plan, 2012

SAFETEA-LU requires that projects selected for funding under the FTA's Elderly Individuals and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (or JARC, Section 5316), and New Freedom (Section 5317) programs be derived from a locally developed, coordinated public transit-human services transportation plan ("coordinated plan") and that the plan be developed through a process that includes representatives of public, private, and nonprofit transportation and human services providers and participation by the public.

Human Services Coordinated Transportation Plan

Section 1. Introduction and Background

Section 2. Planning Context

Section 3. Needs Assessment

Section 4. Strategies and Recommendations

HSCTP Needs and Issues

- Removal of Employment Barriers
- Existing Transportation Infrastructure
- Services to Special Need Populations
- Expansion of Existing Transit Services
- Coordination of Existing and Future Transit Services
- Establishing New Transit Systems
- Public Education Regarding Public Transportation
- Funding

HSCTP Strategies

Issue:	Removal of Employment Barriers		
Recommendation	Area	Priority	Proponent Agency
Establish transportation for employment that extends beyond county boundaries.	All Counties	High	All County Commissions
Reach unemployed persons in terms of location and awareness of services. The lack of transportation services cannot continue to be the barrier to employment.	All Counties	High	County DHR Offices
Specifically target transportation system expansion to meet the needs of local and nearby employers in terms of location and hours, including shift work.	Macon County	High	Macon County DHR
Specifically target transportation system expansion to meet the needs of local and nearby employers in terms of location and hours, including shift work.	Lowndes County	High	Lowndes County DHR
Work with major employers to initiate incentive programs for carpooling and ride-sharing.	All Counties	High	Local Officials, DHR
Design and construct a feasible circulation patterns that facilitate the employment commuting patterns of the region.	All Counties	High	SCADC RPO, Local Governments

HSCTP Strategies

Issue:	Existing Transportation Infrastructure		
Recommendation	Area	Priority	Proponent Agency
Change the scale on gas taxes to a flat amount per gallon rather than percentage. As people are buying less gas because of rising prices, the local revenues from gas taxes are declining.	All Counties	High	State Legislature
Identify existing road conditions that limit the provision of transportation services in rural areas.	All Counties	Moderate	County Engineering
Isolation of residents in rural areas limits the availability to serve them with transportation on a cost-efficient basis.	All Counties	Moderate	Local Governments
Support the construction of the Montgomery Outer Loop to facilitate access to the surrounding region and improve the regional transportation system.	All Counties	High	SCADC RPO, Local Officials, Local Industries
Continue investigation of means to make necessary local road improvements that are necessary to facilitate individual transportation and transit systems.	All Counties	High	SCADC RPO, County Engineers
Continue investigation of means to make necessary local bridge improvements that are necessary to facilitate individual transportation and transit systems and the eliminate transportation safety hazards.	All Counties	High	SCADC RPO, County Engineers

HSCTP Strategies

Issue:	Services to Special Need Populations		
Recommendation	Area	Priority	Proponent Agency
Identify special needs persons and groups of population within each county, with particular emphasis on how to transport them in an emergency event.	All Counties	High	County EMA
Initiate a "Good Neighbor" Program that alerts nearby residents of someone's transportation and utility needs. Once database is complete, work with local non-profit organizations to make contacts, publicize and implement the program.	All Counties	High	County EMA, Local Nonprofits
Expand existing services to senior citizens and disabled persons to accommodate other errands while en route for nutritional purposes.	All Counties	High	Local Governments, Aging Programs
Expand existing services to meet the transit needs of low-income persons through fee reductions and increased service.	All Counties	High	Local Governments
Identify target populations that are in need of recurring health care facility visits and routine preventative care to decrease emergency care.	All Counties	High	Healthcare Providers
Work with healthcare providers to establish a rural transportation systems that serve the region and increases access to preventative care thereby decreasing the need for emergency care.	All Counties	Moderate	Local Transportation Providers, Local Healthcare Providers, County Human Resources

HSCTP Strategies

Issue:	Expansion of Existing Transit Services		
Recommendation	Area	Priority	Proponent Agency
Clearly identify service gaps and expansion needs, as well as duplication of efforts	All Counties	High	All Local Providers
Expand existing transportation services to meet the needs of the general public, along with the SAFETEA-LU target populations.	All Counties	High	Local Providers
Make funding available for expansion of existing transportation services.	All Counties	High	ALDOT
Amend regulations that restrict use of gas tax for road and bridge work to allow expenditures on other transportation services.	All Counties	Moderate	State Legislature
Increase funding to be able to schedule regular evening and weekend transportation services.	Macon County	Moderate	MRCAA, Inc.
Increase funding to be able to schedule regular evening and weekend transportation services.	Lowndes County	Moderate	Lowndes County DHR

HSCTP Strategies

Issue:	Coordination of Existing and Future Transit Services		
Recommendation	Area	Priority	Proponent Agency
Conduct a detailed needs assessment of each county to determine how coordination between transit providers can happen.	All Counties	Moderate	SCADC RPO
Establish a Coordination Point of Contact for each county, either an agency or specific person.	All Counties	Moderate	Local Governments
Expand volunteer program to provide transportation services or errands to assist in meeting the needs of other residents.	All Counties	Moderate	Department of Human Resources
Identify and publish schedule for trips outside of counties and purpose thereof.	All Counties	Moderate	Non-profit Organization
Reduce cost of contract transportation services to encourage participation by local agencies to offset cost for all entities.	Pike County	High	Pike County Commission
Inventory all existing vehicle resources including public and private schools and churches to fully outline all available resources.	All Counties	High	All County Commission
Conduct local workshops to generate ideas and methods for sharing resources and facilities.	All Counties	High	SCADC RPO
Compile service costs for all transportation providers.	All Counties	High	All Transportation Providers
Outline future costs of coordination of transportation services and make this information available to all transportation providers and service agencies.	All Counties	High	All Transportation Providers

HSCTP Strategies

Issue:	Establishing New Transit Systems		
Recommendation	Area	Priority	Proponent Agency
Change the scale on gas taxes to a flat amount per gallon rather than percentage. As people are buying less gas because of rising prices, the local revenues from gas taxes are declining.	All Counties	High	State Legislature
Establish a countywide transportation system for Butler County to serve both the general population and target population groups.	Butler County	Moderate	Butler County Commission
Establish a countywide transportation system for Bullock County to serve both the general population and target population groups.	Bullock County	Moderate	Bullock County Commission
Establish a countywide transportation system for Crenshaw County to serve both the general population and target population groups.	Crenshaw County	Moderate	Crenshaw County Commission
Establish a countywide transportation system for Lowndes County to serve both the general population and target population groups.	Lowndes County	Moderate	Lowndes County Commission
Advocate strongly for state funding and increased local funding.	All Counties	High	Local Officials
Investigate potential for a regional transit systems that connects each county transportation systems and provides access around and outside the South Central Alabama region.	SCADC Region	Moderate	SCADC RPO, Local Governments

HSCTP Strategies

Issue:	Public Education Regarding Public Transportation		
Recommendation	Area	Priority	Proponent Agency
Provide transportation funding program information to all transportation providers and service agencies.	All Counties	High	SCADC RPO
Conduct workshops to inform transportation providers on available funds and eligibility requirements.	All Counties	High	SCADC RPO
Use media to educate community about transportation needs and costs.	All Counties	Moderate	Coordinating Agency in Each County
Look for partners, not individually involved in transportation services, to help promote the benefits of public transportation services.	All Counties	Moderate	Coordinating Agency in Each County

HSCTP Strategies

Issue	Funding		
Recommendation	Area	Priority	Proponent Agency
Amend regulations that restrict use of gas tax for road and bridge work to allow expenditures on other transportation services	All Counties	Moderate	State Legislature
Advocate strongly for state funding and increased local funding	All Counties	High	Local Officials
Change the scale on gas taxes to a flat amount per gallon rather than per centage. As people are buying less gas because of rising prices, the local revenues from gas taxes are declining	All Counties	High	State Legislature
Work with local transportation providers and potential providers to ensure that information regarding funding mechanisms are readily available to relevant organizations	All Counties	Moderate	SCADC, Local Governments

Rural Transportation Stakeholder Input

A goal of the South Central Alabama Rural Transportation Planning Process is the identification of rural transportation needs and issues by local citizens. To facilitate this process, the SCADC conducted six county rural transportation stakeholder meetings. A display ad was run in the nine county newspapers in the region. Additionally, a post card was mailed to all stakeholders. The advertisements and postcard asked all interested persons to attend one of the six rural transportation meetings. Alternatively, rural transportation needs and issues could be reported to the South Central Alabama Development Commission in one of four ways: by attending a stakeholder meeting, by e-mail, by phone or by fax. A comment form for the identification of rural transportation needs and issues was developed and made available on the SCADC website. Comments received in response to the post card and advertisement campaign are included in the *2013 Rural Transportation Needs, Issues and Long-Range Planning* document. Attendance rosters from the county meetings are included on the following pages.

Additionally, the SCADC conducted a telephone survey of all rural transportation providers during the months of August and September. The telephone survey was conducted due to poor attendance at the county stakeholder meetings. A copy of the telephone survey forms are included at the end of this section.

South Central Alabama Rural Transportation Planning Process
Public Involvement Plan

VISION STATEMENT

It is the vision of the South Central Alabama Rural Transportation Steering Committee to establish a continuous and on-going rural transportation planning process that will aid in the identification of transportation needs and issues of the non-metropolitan areas of the South Central Alabama Region.

GOALS

I. Open Process

It is the goal of the South Central Alabama Rural Transportation Steering Committee to have an open planning process that encourages early and continued public participation.

II. Information Access

It is the goal of the South Central Alabama Rural Transportation Steering Committee to provide complete and timely information regarding the plans, programs, procedures, policies, and technical data produced or used during the planning process to interested parties and the general public.

III. Notice of Activities

It is the goal of the South Central Alabama Rural Transportation Steering Committee to provide timely and adequate public notice of hearings, meetings, document reviews, and document availability.

IV. Public Input and Committee Response

It is the goal of the South Central Alabama Rural Transportation Steering Committee to demonstrate consideration and recognition of public input and to provide appropriate responses to public input.

V. Inclusive Process

It is the goal of the South Central Alabama Rural Transportation Steering Committee to encourage participation in the planning process by low-income groups, minorities, persons with disabilities, and the elderly; and to consider the needs of these groups when developing programs and plans.

STRATEGIES

A. The South Central Alabama Rural Transportation Steering Committee will develop and follow a Public Involvement Plan and review the plan at least every five years.

Goals Addressed: I, II, III, IV, V

B. The South Central Alabama Rural Transportation Steering Committee will maintain a Rural Transportation Stakeholder List in each of the following six counties: Bullock, Butler, Crenshaw, Lowndes, Macon and Pike.

Goals Addressed: I, II, III, IV, V

C. All meetings of the South Central Alabama Rural Transportation Steering Committee and the County Rural Transportation Advisory Committees will be open to the public and will provide non-committee members an opportunity to participate in the planning process.

Goals Addressed: I, IV, V

D. The South Central Alabama Rural Transportation Steering Committee will provide notice for all county Rural Transportation Stakeholder meetings. The notice will include the meeting purpose, date, time, and location of the meeting. The notice will be provided to local media representatives and groups that address the needs of low-income groups, minorities, persons with disabilities, and senior citizens.

Goals Addressed: I, II, III, V

E. The South Central Alabama Rural Transportation Steering Committee will provide a notice for all Rural Transportation Stakeholder Meetings to groups that address the needs of persons with disabilities. The notice will include the meeting purpose, date, time, and location of the meeting. The notice will request that interested individuals, who need special accommodations, notify the South Central Alabama Rural Transportation Steering Committee prior to the date of the meeting so necessary arrangements can be made. The South Central Alabama Rural Transportation Steering Committee will follow all of the requirements of the Americans with Disabilities Act.

Goals Addressed: I, II, III, IV, V

F. The South Central Alabama Rural Transportation Steering Committee will consider all legitimate inquiries and comments regarding transportation planning activities. When warranted, a written response will be provided.

Goals Addressed: I, IV, V

G. The South Central Alabama Rural Transportation Steering Committee will maintain a record of public involvement. The record will document the public involvement activities of the South Central Alabama Rural Transportation Steering Committee and the County Rural Transportation Stakeholder Committees.

Goals Addressed: I, II, IV

H. The South Central Alabama Rural Transportation Steering Committee will make available to the general public and government agencies all documents and appropriate technical data produced for the transportation planning process.

Goals Addressed: I, II, IV, V

I. The South Central Alabama Rural Transportation Steering Committee will encourage the publication of news articles on the transportation planning process.

Goals Addressed: I, II, III, V

J. The staff of the South Central Alabama Development Commission will be available for speaking engagements concerning the transportation planning process.

Goals Addressed: I, II, III, IV, V

PERFORMANCE MEASURES

1. What was the attendance percentage of the South Central Alabama Rural Transportation Steering Committee Meetings?

   Strategy Measured: C

2. What was the attendance at each of the County Rural Transportation Stakeholder Meetings?

   Strategy Measured: B, D, E

3. How many citizens who were not elected officials, local government employees or transportation agency employees attended stakeholder committee meetings? What was the ratio of citizens to elected officials and employees?

   Strategy Measured: B, D, E

4. What was the ratio of attendance at stakeholder meetings to meeting notices mailed?

   Strategy Measured: D

5. How many standing committee meeting notices were posted in the local newspapers?

   Strategy Measured: D

6. How many meeting notices were posted in public places?

   Strategy Measured: D

7. Was the mailing list updated annually or more frequently?

   Strategy Measured: D, E

8. What was the ratio of requests for special meeting accommodations to special arrangements made?

   Strategy Measured: E

9. How many persons with disabilities attended stakeholder meetings? What percentage of meeting attendees were persons with disabilities?

   Strategy Measured: E

10. How many complaints regarding the transportation planning process were received?

    Strategy Measured: F

11. What was the ratio of inquiries or comments to responses?

    Strategy Measured: F

12. Was the record of public involvement produced?

    Strategy Measured: G

13. How many documents were produced?

    Strategy Measured: H

14. How many documents were available on the web site?

    Strategy Measured: H

15. How many requests for information were received (in-person, by telephone, and by mail)?

    Strategy Measured: H

16. How many documents were distributed?

    Strategy Measured: H

17. How many newspaper articles were published on the transportation planning process in the local newspapers?

    Strategy Measured: I

18. How many speeches or presentations did the staff provide?

    Strategy Measured: J

19. Was the Public Involvement Plan produced / updated?

    Strategy Measured: A

20. How frequently was the Public Involvement Plan reviewed?

    Strategy Measured: A
